(615) 612 – 9560 | michael.ray.mccomas@gmail.com | https://www.linkedin.com/in/-michael-mccomas/ | https://github.com/McComas-Developer

Education

Bachelors | Middle Tennessee State University | May 2021

- Major: Computer Science
- Minor: Math
- Courses: Algorithms and Data Structures, Neural Nets, Java, Assembly, Discrete Structures

Projects

Kind: *August 2019 – December 2019*

- A social media android application designed & built with 3 other developers as part of a Group Project. Users can create a profile and posts, view feed of popular posts other users created, and search through posts by tags and keywords.
  - Tech Stack: Android Studio — Kotlin & Java, Adobe XD — Designing the UI/UX, Firebase Authentication, Firebase Database, Firebase Storage, Jetpack Libraries — LiveData, Navigation, Room, GitHub — Version Control, Dagger — Dependency Injection

Fake or Fact: *December 2019 – Present*

- A Trivia based android application currently in development. Users can select a category and receive questions based on that choice. They then decide whether the statement is true or false.
  - Tech Stack: Android Studio — Java, Adobe XD — Designing the UI, Firebase Cloud Firestore, GitHub — Version Control

Professional Experience

IT Programmer | PRGX | *June 2019 - Present*

- Stripped down VBA code in original Microsoft Access application to its most basic form and rebuilt it from the ground up.
- Dynamically transfer data to and from an SQL server to provide real time data to improve record tracking of correspondence. No method existed beforehand to track this data.
- Created reporting tool that automates dozens of processes originally done by hand and provides reporting options to view, track, report, and analyze data. These automations are being used by employees and management to improve workflow.
- Application I designed and coded has been adopted by the entire North American Division and implemented into their systems.

Skills & Abilities

Languages

- Java, Kotlin, C++, Python, VBA, SQL

Software

- Android Studio, GitHub, Firebase, Adobe XD, Microsoft Access, SQL Server Management Studio

Accomplishments & Awards

- Earned the rank of Eagle Scout after 12 years of scouting in the Boy Scouts of America
- Received the “Invent and Simplify” Award from PRGX
- MTSU S-STEM Scholarship Recipient
